CAPT. SCOTT AND DR. WILSON

SOME REMINISCENCES.

tain Scott and Dr. Wilson are given in an article headed. "Two Heroes of the Antarctic," in the March number of the " Cornhill Magazine." Messrs. Smith, Scott's book, "Yoyage of the Discovery," and the following reference to the preparation of the book appears in the article :

His perfect comradeship with Dr. Wilson, the closest companion of his first expedition, as of the last, was delightful to behold, as they sat together in this room and discussed various points in the forthcoming book.

The question of the frontispiece to the first volume came up. It was proposed to give a photograph of the southern sledge party led by Scott himself. Scott regarded it thoughtfully; then, suddenly looking up, said, at first tentatively and then with growing emphasis: "What do you think, P. O. Box 1206, Bill? I don't think we ought to be there. The southern party weren't more than any other sledging party. No, we won't have it." And it was thrown out to take a more chen kwong & co., LD sketch of the good ship Discovery was suggested.

cheery question: "How long do you think you would take to do it, Bill?" and the quiet answer in matter-of-fact tone: "I can get it done in thirty six hours if I sit up all night to it."

Captain Scott would appear in the office from time to time with a new chapter finished, saying, "This is a tread-mill job, and it makes such dull work that no one is likely to read it," and would gladly make it over to a friendly hand to make sure that, in his own phrase, the "hooks and eyes to many a random sentence" were in their right places.

his heart was "very seriously affected." At this Mr. Streatfeild laughed, and the doctor asked why: "For these reasons," Mr. Streatfei'd replied, " I shot almost every day through last shooting season; walked to and from the various/rendezvous, distances, of not lera. infrequently twenty miles, on almost every occasion; I have played a cricket match

very nearly every day through this summer : I can eat a hearty breakfast, drink a quart of stout and then walk off twenty miles as hard as I can lick any morning you like, and never turn a hair. That is why I laugh, and I think I am justified." The doctor "fussed a bit," but gave Mr

Streatfeild his pass all right. "If he is still on this side of the river," Mr. Streatfeild adds, "perhaps he will be glad to hear that to-day, twenty-five years after he said my heart was not trustworthy, it is still going strong, and that I am look ing forward to testing it to the uttermost during the shooting season that has just started." GOING TO KUBUMAN.

Mr. Strentfeild goes on to state that as soon as he had accepted the appointment masal catarrh. of Civil Commissioner at Kuruman; there was "a most tremendous burry" for him to take his departure, although it had taken menths for the Colonial Office to find out that such an appointment was desirable. When he' reached the Cape he was fold to go a hundred miles or more out of his way, to Veyborg, to report himself to the Administrator of the whole of Bechuanaland. At Vryburg-Mr. Streatfeild was informed that there was "no burry in the world"

"I fancy his Honour the Adminstrater was really quite puzzled to know what to do with me. However, he decreed that he and his two secretaries required a little relaxation, and so they would in about a week come to Kuruman with me, introduce me to the missionaries and the surrounding desert, and there leave me to my fate. . . . Had the authorities seen fit to let me find my own way from Vryburg to Kuruman after the Administrator had seen or thought he had seen what manner of man I was, it would have cost the Government, it the outside. a couple of sovereigns for the hiring of a liorse to carry me the two days.

That tobacco smoke is inimical to the activity of micro organisas is nothing new, but definite experiments have recently been made, says the "Laucet," which show that tobacco amoke repidly destroys, particular, the comma bacillus of cho-

A good many years ago it was reported by the senior medical officer of Greenwich workhouse that the tobacco-smoking inmates enjoyed comparative immunity from epidemics, and tobacco-smoking was believed to have had a disinfectant action in cases of cholera and other infectious diseases. Again, during a cholera epidemic at Hamburg it was reported that, not a single workman engaged in the cigar factory in that city was attacked by the disease. Later it was stated that among a body of 5,000 cigarmakers only eight cases and four deaths from cholers occurred.

Subsequent experiments proved that tobacco amoke destroyed the bacilli of Asiatic cholers, as well as pneumonia, and there was some evidence also that tobseco smoka was a preventive of some forms of

THE FORFAR PICTURES.

"Remarkable Revelations."

[Note:-The following article on the valuable pictures recently found in Forfar Town Hall and regarding which there is ab present some dispute as to their ownership, was contributed recently by Dr. J. A. Lowson of Forlar, at one time well-known in Hongkong. Recently, our "Scottish correspondent gave some, interesting particulars regarding the pictures. The article is from the "Dundee Advertiser."—Ed. " C.M."] STORY OF THE DESTRUCTION OF THE DUNDAN

PORTRAIT. (By Bailie Dr. J. A. Lowson.) The recent uncarthing of documents in connection with the Forfarshire pictures As long as the malaria parasite remains now supplies the inside details of an inn the blood attacks of Malariah Fover will eident which for long has been merely be recurrent. It is obvious, then, that the legend in the County of Angus. There is not the least doubt about the authenticity of these papers. It may at once be said try to do, but to eliminate the cause. Just that they are official, but were not found

how Dr. Williams' Pink Pills cure the in the Town Clerk's office. Like many sufferer from Malaria Fever is here other State documents, they had been quietly kept in some one's private posses-, sion for the usual purpose of hushing up "The Malarial attacks used to start with the affair as much as possible. The as the story develops. In the year 1806-7 the Provest, of the

county town was John Ritchie, but during most of the year he was an invalid. and took no part in public business after his first month of office. Notwithstanding this, it can truly be said that during his reign there was no lack of excitement ing me, made me feel even worse than in the old burgh. There appears to have been either a Parliamentary general or i bye-election in November 1806 and a general election in May 1807. The burghs election in 1806 took place at Cupar Fife, that I have ever since been sorry that but in May 1807 not only did the county these Pills did not come to my notice be- election of an M.P. take place in Forfar, but it was also the turn for the burghs

> A RED LETTER DAY. The first sign of approaching bustle in the May election was apparent on the sixth of the month, when the Forfar Town Council resolved to support Sir David Wedderburn's candidature as M.P. for the burghs. On the 18th of May, owing to the illness of Provest John Ritchie. ex-Provost Watt was appointed Commissioner by the Conneil to record their vote. and on the same evening Mr. James Wedderburn, on behalf of Sir David Wedder

burn, entertained the Town Council at a banquet. From the details of the bill to this dinner it is quite evident that the Forfar " billies " of that day could oper their mouths on appropriate occasion: just as well as they could keep them shut when discretion demandeds. The burgh election was to take place on the 30tl May, but before that came off the county men had bliefr fling, the 25th of May becoming a red letter day in county history. The Hon. W. Maule was returned as member for the county, and in the

evening of the same day gave the mana dinner to his supporters and public mer in the Town and County Hall. There has always been a story of Macilthrowing a lighted candle at Scott's pie

ture, but little beyond that has been known now for many a year. What actually occurred about midnight seems to be as follows: It would appear that Mr. Patrick Orr. W.S., Sheriff-Clerk, left the hall at that reasonable hour, and there was no sign of disorder when he de parted. Presently the members of the company diminished, and a Mr. Nicol removed some paper notice from one of the walls and went off with it. Mauland his friends repeatedly sent, probably to one of the hotels just opposite, a messanger requesting Nicoll to return the paper, but in vain. It is not clear what followed. It is admitted that the conpany was "intoxicated," and the next thing known was that Sir Henry Dundas. portrait was in ruins and Scott's considerably damaged. There seems to be pdoubt that for some reason or other Nicoll's action was a most provocative one, and its result on well-warmed blood was bound to be serious.

A HUMBLE APOLOGY. Maule evidently at once appreciated the gravity of the situation, and through the, agency of Mr. Patrick Orr sent a humble spology to the honourable the Magistrates of Forfar for damaging their property. They were asked to get another picture

of Mclville painted, in addition to patching up Scott's; and he would refund to them the whole cost of the week. From the terms of the apology it is practically certain that Maule himself was the dostroyer. At the end of the apology Red Lacquer, Bronzes, and a few fapanese occur the words, "I cannot suppose that | Batsuma Vases. any unjust use of this regretted act will | On View from Tuesday, the 15th April. be attempted for party or interested purposes." This hope was a vain one. The burglis confest on the 30th May resulted in the re-election of Sir David Wedderburn, and another great banquet took place in the hall, the account of which is also extent. Ninety-two gentlemen sut down to dinner, and the amount of food and drink got through must have been large. Port and rum punch were the most severely punished, but whisky and

other potables were also consumed in large quantities. Sir David Wedderburn evidently did his best, or worst, to get a criminal prosecution brought against Maulo, and a long and bitter fight ensued. The position of the Ferfer Bailies at this time must have been a difficult one between the fires of the two parties. It was reflected in the fact that in the month of June, when the apology of Mr. Orr, on behalf of Maule should have been laid on the table, no himute of the Town Council was put on paper. During the fight Mr. Orr seems to have noted as an intermediary as well as egent, and to have done his best to petch up the quarrel.

Brain Fag, Nervous Exhaustion—

Just a change of opinion was enough to give Mr. W. King his present prosperity, for he realised in the nick of time that his way was not curing his brain fag and nervous exhaustion, so he tried the Phosferine way. Mr. King's method was to ignore his despondency and feeling of collapse. and persuade himself there was nothing unusual in the painful fatigue the lightest effort to work cost him, until, as he steadily got worse, he resolved to drop his own opinion and see what Phosferine could do. The result was so astonishingly beneficial, even after a few doses, that the brain fag and nervous exhaustion ceased entirely, enabling him to do more work than before and yet not feel the strain. This remarkable advantage is seen in the extraordinary energy and vigour of Mr. King's public speaking, and so amazingly have his prospects improved since his speedy recovery, that he declares he had to come forward with the evidence of the magnificent benefit he derived from Phosferine:

Quite Gone—Never Return.

Mr. W. J. King, School House, Trumpington Road, Forest Gate, E., writes:-"I am writing to add my name to the list of those people who have found Phosferine to be the Greatest of all Tonics. Some time back I was very much run down through overstrain brought on by incessantbodily exercise and mental application. The usual tendency of mankind is to give up some of their work, have a rest, and at the same time take medicine, so I endeavoured to keep going on without seeking advice, but as I was getting werse I found that policy would not do. Having heardmany friends speak about Phosferine, and one in particular offering me some. I decided to give it a trial. Purchasing a 2/6 bottle, I began to doctor myself. The result not only astonished me, but others also noticed how much better I was, even although I had only taken a few doses. I found I could do the same amount of work easier, and at present am able to do more than before and yet not feel the strain. I have a good deal of public speaking, and I find an occasional dose of Phosferine is a great benefit."-May 28, 1912.

DETERMINED ON PROSECUTION. Even as late as November 1807 it is

found that Sir David Wedderburn was still determined to force a criminal prosecution. On September 30th ex-Provost Watt was again raised to the Provostship, made of a confidential communication from Wedderburn desiring a prosecution to be undertaken. One difficulty apparuntly was that if the Magistrates accepted the apology and replaced Melville's portrait by unother, as well as restoring Scott's, this action would cut the ground away from the criminal prosecution, that Wedderburn was so auxious to secure. in this dilemma Provost Watt new con-"uited "Honest George" Dempster of Dunnichen, who had played a leading part in the Committee charged with corrying out the steps for placing the original pictures in the hall. Dempster was strongly, very strongly, of opinion that Maule's action "should not be made the abject of a criminal prosecution. On such occasions mutual indulgence must be shown." He then gives the Provest his " decided opinion." " Mr. Maule's agent had undertaken to pay for the damages, then see to the picture of Lord Melville being replaced and Mr. Scott's The hearts that respond to the pipes of picture repaired, and send the bills to Mr. Orr for payment. . . In view of the present attitude of the County Council, it is deemed inexpedient to give any further particulars, but it is Expressing its passion in musical fashion, o be hoped that a more accommodating spirit will prevail. One remark more may be pormitted. Mr. Patrick Orr was sheriff-Clerk to the County of Forfar, a Writer to the Signet, a leading county man, and well-informed in all the proceedings affecting the origin of these pictures. He at least did not require to waste much time in making up his mind list the Magistrates of Forler were the sole parties to spologise to and to be treated with for the restoration of the

Builds up Strength. As a recuperative in all cases of lung, stomach or bowel

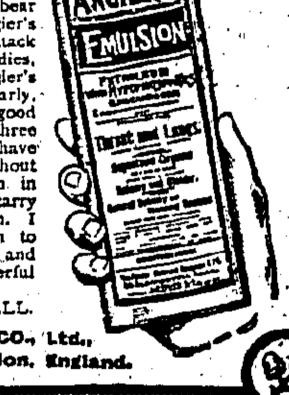

weakness, or after any severe illness, Angier's Emulsion positively has no equal. Bland and pleasant, it promotes appetite, aids digestion, and builds up health and strength. It is the ideal tonic and builder, because it is soothing and healing as well as strengthening. Angier's Emulsion is pleasant to take and agrees perfectly with delicate stomachs. It is equally good for all ages and may be given with perfect confidence to delicate infants

and children. It is largely used in hospitals for children. "Its Wonderful Building-up and Curative Properties."

THE R'S Ashleigh, Knighton, Leicester, Dear Sirs,—It is with great pleasure I bear testimony to the inestimable value of Angier's Emulsion. Nine years ago I had a bad attack of mouritis, and after trying several remedies, a physician of high standing prescribed Angler's Emulsion. I commenced to take it regularly, and within a month began to feel the good effects of it. I persevered and within three months I was quite restored to health. I have had bronchial and lung troubles, and without Angier's Emulsion I have no hesitation in saying that I should have been unable to carry out the strenuous work I have undertaken. have recommended Angier's Emulsion to hundreds of my friends in this country and abroad, who have all testified to its wonderful

building-up and curative properties.

HEALTHY ENGLAND.

Ylews of Famous Austrian Physician.

Dr. Edgar Ganz, the famous Austrian physician, to whom so many people seeking a "cure" at Karlsbad owe so deep a debt of gratitude, has been passing a low days in London, making his home at Claridge's Hotel.

Seen, by a representative of "The Standard," Dr. Ganz expressed the great pleasure is had been to him to see London again. "It is seven years since I came. here last," he said, "and it is simply wonderful to see the changes so very obvious in this city of many cities. never should have recognised the Strand again, with the splendid Aldwych and Kingsway buildings and all the new thestres. I am not surprised that London is now being compared with Paris as a holiday rendezvous. Personally, I am of opinion that it is one of the healthiest cities in the world. Indeed, England is one vast health resort, and do not think English people realise We of the Continent know it very well. Some of our most illustrious persons, as you know, come for your balmy Bourne. mouth breezes, your invigorating Harrogato waters, and the life-giving air of your coast towns, especially on the East. myself have not hesitated in recommending convaloscing in England to my

own patients. BRACING MOUNTAIN TOWNS.

"Of course, we Austrians have a wide choice of change of air without going outside our own empire. We have the varied climate of the Alps stretching almost from Vienna to Trieste. Then we have so many spas and mountain places, and there is the Tyrol. Still, I believe in complete change, not only of air, but of country, style of surroundings, language, cooking, and amusement, both for the brain-weary and for all who have internal trouble of any description. Let English people come to one of our Austrian resorts, and Austrians may find fresh lease of life in your bracing mountain towns or your admirable coast cities. I know of no marine city anywhere to equal Brighton or a more delightful spot for complete rest and forgetfulness than

Hastings. " Picture galleries and theatres here? Why, of course, I have seen all that I could. One of my countrywomen, I see, is delighting everybody at Daly's Thestre. It is pleasant for an Austrian to find how thoroughly London playgoers appreciate Viennese music. I saw something of your suffragists, also. I bought a paper from one of them. She seemed such a nice ladylike person, and looked. so very extraordinary standing there in 598 the gutter. What a pity it is that they act so foolishly when they have, to a very large extent, such a just cause. It must be brain trouble; it can't be indigestion. No; we have no such agitation in Austria. We have women of advanced opinions, perhaps, but they never for-

THE HOSPITALS. " I hope to be in London again in about a year from now, and then I shall really go on an exploring tour all through and over London. I want to cement my very brief sequaintance with so many London institutions. Your hospitals, for instance. struck me as being marvellously well- good intentions (says the "Liverpool managed establishments, and it is alike happiness and honour to me to know that number among my English friends several physicians and surgeons doing noble work, not only for to-day, but for all posterity, in one or other of the vast theatres of medicine so splendidly housed in this metropolis. The Prevention of Cruelty to Children Society in Leicestersquare is unique in its work, and cannot be too highly commended. Your cancer hospitals are also most worthily conduct ed institutions. But I do not only wish want to become familier with its brightnoss-its rainbow tints, if you will. There are your glorious parks, your exquisite river scenery, excursions to Richmond and Windsor and Kow-ii the suffragists leave any of it over-all to be repeated by me; and also, let me whisper it, I should even like to see some of the pabaret life which seems to have taken root in London from Paris and Vienna in the past year or two."

Its Cause and Cure. Pew ailments are more painful and

annoying than Sore Throat, which is so prevalent just now This complaint always means that the sufferer has inhaled germs— particles of vegetable life so ex-tremely minute that, when seen through the microscope; they look like little specks, as shown in the above disc.

The quickest and most thorough way of killing these germs is to suck a few Formsmint Tablets.... The pain and swelling rapidly diminish, the mouth and throat feel thoroughly clean and refreshed, and in a short time the Sore Throat is cured. Pormamint is just as effective, too, as a preventive of Sore Throat and of much more dangerous epidemic

diseases like Diphtheria, Consump-

tion of the Lungs, Scarlet Fever,

and Messics.

Wulfing's Formamint Tablets are held in the highest esteem by medical men. For instance, a physician writes in "The Practitioner": "I have never had Sore Throat myself since I began to use Formamint, although I suffered periodically before."

Formamint is habitually used by well-known people like the Right Hon. Arthur J. Ballour, M.P., Lord Instice Buckley, and Sir Gilbert Parker, M.P. To take only a few examples, Lord 'Glantawe writes: "I have been using Formamint for Sore Throat with most satisfactory results." Signor Caruso, the world-famous tenor, writes: "I have found Wulfing's Formamint Tablets very beneficial to the throat and pleasant to the taste." The Bishop of Bath and Wells writes: "Wulfing's Formamint is a remedy and preventive, the value of which is appreciated in

this house." Such eminent people would not allow their names to be published if they had not proved the efficacy of Formsmint. Their names are a guarantee that it would be worth your while to try Formamint, which can be obtained of all Chemists, and also to send this coupon for a Free Copy of a valuable Handbook on Sore Throat, Diphtheria, etc., written

by a London physician. Only a limited number of copies are available for free distribution, and there is sure to be a quick demand for these. Post this coupon at-once, and thus make sure securing your copy. Wulfing's For-mamint can be obtained of all Chemists, in bottles containing 50 tablets. Insist on the genuine Formamint, and refuse worthless and harmful substitutes.

The danger of well-meaning persons From the little I have seen of them they | thoughtlessly putting into practice their Post") was illustrated recently in a manner which would possibly not commend itself to the grateful appreciation of a tram con. ductor. A tramear had stopped to permit the conductor to "plug" the stationary time indicator. In his absence from the platform a lady entered the car. She noted the fact that the guard was not on the platform, and, concluding that he was up stairs collecting fares, she pressed the bell button in the belief that she was doing a good turn to the conductor. way construction. The State railways are placed to a separate account, the idea being that they should not be considered as a source of revenue to the State, that all the profits should be allotted to their extension and improvement Although there has been great progress in the construction of railways in Japan, still, taken in relation to the whole country, the mileage is not very large, and naturally the profits from the railways already constructed, amounting to some ten million yen a year, have not proved sufficient to meet the new un dertakings which the Government thought advisable, and which require an unutual appropriation of some fifty million yen. The strict economists wished to restrict the expenditure to the profits of the existing railways, but, if report be correct, the late Government merely proposed to re-30 per cent - that is, to thirty-five million yen. BUDDHIST REVIVAL IN YUNNAN.

The Yunnan branch of the Society for the revival of Buddism, which society was formed in Shanghai at a congress held last December and at which four thousand priests from the most important monasteries in China were present, has just been inaugurated. The aim of the Society is to renew the interest of the people in Chinese Buddhism, to establish schools for the teaching of the doctrine, and to counteract the influence of Japanese Buddhism which has for some time been sending missionaries to China. The Japanese priests say they interpret the treaties concerning I.id., on Wednesday evening. The guests on the contrath. They related to the foreign missionaries to apply also to them. With the fall of the Manchu court, many of whom were fervent devotees of Bu dhe. the priests fear that the government may deprive them of their properties, but should the society succeed in reviving enthusium they would naturally be left

THE CONSUMPTION REMEDY

SERUM PROM TORTOISES.

Dr. Friedmann, who is now attracting so much attention in America on account of his professed curs for consumption, gave an interesting interview to a correspondent of the "Liberte" prior to departing for New York, in which he explained both the nature of his cure and its source. Dr. Friedmann told the correspondent that he felt practically certain he had found a specific cure for tuberculosis in all its

forms. He added :-" I have been searching for fifteen years, and and if I now proclaim my thorough certainty, knowing all the hopes it will raise, I do so knowing well what I am saying. My remedy is extremely simple. Like all specialists, I followed the discoveries of Koch with close attention, but when it was proved that his tuberculin did not give the desired results I determined tofollow up Koch's theory that tuberculoris could only be successfully fought by s

serum made with living bacilli. "I scarched high and low for such bacilli. and found them at last, though you would a never guess where ! It was in see tortoises. I cultivated a germ in these creatures, and out of the culture I obtained a serum which I inject into my patients. This serum rapidly destroys all tuberculous germs in the organism, and that is why it cures not only pulmonary tubercolosis, but tuberculosis of the bone and all other shapes of the disease.

Dr. Friedmann went on to say that her would welcome any colleagues who would go to him and would treat anybody whe want to Berlin, and would charge nothing to the poor. Before leaving for America, Dr. Friedmann left complete instructions with several of his confreres.

The correspondent adds that before writing he determined personally to investigate the alleged cures, and had seen a dozen cases of children cured after eight month treatment. He also saw an American, from Chicago, who when he came cou'd hardly walk from the lift to his room, whereas now, he said, "1 never take the lift, but run up and down the four flights of stairs without difficulty, have the appelite of an ogre, and sleep like a child." This man has on y been a month under treatment, and is not yet quite cured, but is full of hope, The correspondent also spoke with many medical men, who told him that now whenever they had a case of tuberculosis they sent it at once to Dr. Friedmann, There are still many aceptics, but such authorities as Fritz Mayer, Rasfunkel, and Klemperer have confirmed Dr. Friedmann's claims before the Medical Society of Berlin. Out of 1800 cases there has not been a single failure to effect a cu e, according to the correspondent. Dr. Friedmann does not claim to restore the half-dead to life or to recreate dead tissues and organisms, but he does claim to cure all patients in the first and second stages of the disease, and of those who are pest hope in 70 per cent. there is a notable prolouzation of life and. a radical suppression of suffering. If there facts are confirmed, as the

correspondent alleges, it really seems that Dr. Friedmann has made a great discovery,

RETIREMENT OF CHIEF INSPECTOR BAKER.

HONGKONU.

Chief Inspector H. G. Baker, of the Hongkong Police, is leaving the Colony to-morrow, having retired on pension from the Force after thirty years' service. Mr. Baker is one of the best known men in Hongkong, a man of fine physique, and held in high esteem. He has seen many important vicisaitudes in the life of the Colony during his period of service bere, but when interviewed by local Pressmen to-day he was modestly retiring in speaking of himself and his work.

The Chief Inspector was drafted from the Bristol police to Hongkong with twentyfour other policemen in 1882, and lauded here on September 5th of that year. Some of these men died here. Three went home on pension and died at home, and the others are drawing pension at home after serving periods of five, ten and fifteen years in the Hongkong Police. Mr. Baker was in the Bristol Police for two years and four months, having joined that body before he was twenty years of ago. He was made sergeant in the Hongkong police motion to Chief Inspector came in March | 1903, so that he has been just ten years in that position.

and was initiated into the United Service Lodge in Hongkong just over twenty one years ago. He has been through all the Chairs, and the District Grand Master conferred on him the highest degree in his power - that of Senior Warden-in recognition of his services in the Masonic cause. Mr. Baker was married in 1893 when home on leave, and he has had three daughters and one son, all of whom were born in Hongkong. On reaching England Mr. Baker intends to reside at Avonmouth.

Mr. Baker is a prominent Freemason,

near Bristol. When Mr. Baker came to the Colony the European police force was about 130 strong. and it now numbers 172. The retiring Inspector was in the Hongkong Fire Brigade for ten years, and has attended some very big blazes. He told the "China Mail " representative that in the earlier days of his service armed attacks on houses in Hongkong were quite frequent up till about 1895, but these were now very rare. Mr. Baker had many exciting experiences in these robberies, and in these days the police always carried long truncheons in the hand as well as being armed with revolvers. One of his narrowest escapes was at a fire which occurred on the premises of Nan Ing Loong in Queen's Road, when he was on astair-case in the blazing building with Sergeant Grant. The stairs began to

creak, and they had just time to reach a terior of the house came crashing down. Mr. Baker has received a number of parting gifts from numerous friends in the connected. The members of the Police Club met on Wednesday to bid him goodbye, and very complimentary references were made to his police career by Mr. Woodhouse, the Assistant Superintendent

THE CHINESE LOAN.

Sir J. D. Rees asked whether it would be a condition of any loan to China in which Great Britain participated that no assistance therefrom should be given to the Chinese forces throatening Thibet on its eastern border.

Mr. Acland said the loan would be made with certain specific objects, but not including that mentioned.

(18th.) In a written reply to Mr. Harmood-Banner, who usked the Secretary for Foreign Affairs if he would state BOLTON in 1893, and Inspector in 1897. Sir Edward Grey said: The negotia-tions for the Chinese Reorganisation Loan are still in progress, and are, therefore, still confidential. No terms have been proposed to the Chinese Government which have not received the unanimous approval of the six Powers interested, and, as a matter of fact, terms are now under the consideration of the Chinese Government that have the unanimous approval of the six Powers. Pending the negotiations with regard to the issue of the reorganisation loan, His Majesty's Government will continue to give their exclusive support to the groups who are negotiating that loan.

ENGLAND AND THREET.

Sir J. D. Rees asked the Secretary for Foreign Affairs whether, under the Trenty of Lhassa. Thibet was free to enter into independent engagements with Mongolia; and whether His Majesty's Government had yet recognised and change of status in the latter country's relations with China.

Mr. Aeland, who replied in the absence of Sir E. Grey, said: There is nothing in the Anglo-Thibetan Convention of 1904 to preclude the Tibetan Government from, entering into independent treaty engagements, provided that the terms of Article IX. are not infringed. The answer to the second part is in the negative.

THE OPIUM TRAFFIC.

Sir J. D. Rees asked the Under Secretury for Foreign Affairs, with reference colony and from bodies with which be was to a statement made by him in debate a few weeks ago, what was the " speculative element" on the part of purchasers of opium permits in Calcutta in respect of opium which, under express treaty with the British Government, the Chinese Government was bound to admit for sale into the Chinese Empire with the exception of certain listed portions thereof.

Mr. Acland, Under Secretary for Foreign Affairs, replied: I can mention two matters which seem to me entirely to justify the word "speculative." Firstly, it is always possible that the feel ing against opium in China might lead to their coasing to demand opium; and secondly, the Chinese Government might take advantage of the Treuty of 1911 and exclude opium under the terms of the treaty either wholly or partially from that country. If those two things, apart from others, do not justify the word speculative " I do not know what

"That President Wilson has modified the view he held before his insuguration about 272,000lbs. annually. I under by a man who enjoys his confidence. The Administration, he said, was opposed to precipitate action on the Philippine question, and especially to the passege of legislation to grant the natives their independence at a definite date, but it was in favour of careful and impartial examination to ascertain what conditions. now existed, and how well qualified the people of the islands were to carry on their own government without the help of the United States. When that investigation had been made it would then be time enough to determine the next step to be taken. It is generally helioved that no change will be made in the status of the Philippines for some time, even though Mr. Bryan has always been in favour of their independence.

HONGKONG TIDES.

The tide table given below has been compiled at the Nautical Almanae Office tn London from the result of the analysis of observations taken by means of an automatic tide-recording machine in the Watter Police Basin at Taim Sha Tsui during the years 1887-8-9.

The zero of the table corresponds with

the zero of the soundings in the Admirals. Charts which has been found to be 4 feet 3 inches below mean see level. To obtain the depth of water on the Misser gauge at the Victoria Naval Yard add I feet 4 inches, and on the gauge of Lamour Dock, Aberdeen, add 10 feet 6 inches to

the height given in the table.

April 12th to 18th, 1918.
